Alex Morgan

Senior Data Engineer

alex.morgan@email.com | +91 98765 43210 | linkedin.com/in/alexmorgan | Kerala, India

Summary

Data Engineer with 5 years of experience building reliable data pipelines and warehouses on Microsoft Fabric and Azure. Strong in SQL, ETL/ELT, and lakehouse design. Looking to grow into AI-ready data engineering, with hands-on interest in RAG and AI agents.

Skills

- **Platforms:** Microsoft Fabric, Azure Data Factory, Azure Synapse, Azure Data Lake Storage
- **Languages:** SQL, Python, PySpark, DAX
- **Data work:** ETL/ELT, data warehousing, lakehouse, dimensional modeling, incremental loads
- **Tools:** Power BI, Git, Azure DevOps, CI/CD
- **AI (learning):** RAG, vector search, Azure OpenAI, basic agent workflows

Experience

Senior Data Engineer, Northwind Analytics

Jan 2024 - Present

- Built Fabric pipelines that move data from semantic models into a Lakehouse and Warehouse, cutting daily load time by 40%.
- Added incremental load logic for large history tables, which lowered compute cost and refresh time.
- Wrote notebooks to clean and standardize data before it reached reporting layers.
- Set up monitoring and alerts for pipeline failures, reducing manual checks by about 60%.
- Mentored two junior engineers on SQL tuning and pipeline design.

Data Engineer, Contoso Retail Systems

Jun 2021 - Dec 2023

- Designed and ran ETL pipelines in Azure Data Factory for sales, inventory, and supplier data.
- Created a star-schema data warehouse that served 15+ Power BI reports.
- Tuned slow SQL queries and cut report refresh times from 25 minutes to under 8.
- Worked with business teams to turn reporting needs into clear data models.

Junior Data Engineer, Fabrikam Solutions

Jul 2020 - May 2021

- Wrote SQL scripts and stored procedures for daily data loads.
- Helped migrate on-premises SQL Server data to Azure.
- Built data quality checks that caught missing and duplicate records early.

Projects

- **Demand Forecasting POC:** Built a sample forecasting flow with rolling forecasts at part level, using Fabric and Python.
- **RAG Question-Answer Demo:** Indexed internal documents with vector search and used Azure OpenAI to answer questions with sources.

Education

B.Tech in Computer Science, University of Kerala, 2020

Certifications

- Microsoft Certified: Fabric Data Engineer Associate
- Microsoft Certified: Azure Data Engineer Associate
